

PRESS RELEASE – 325 ES-I

NEW 3-1/4" Energy Sentry® Series Window System

Commitment to providing long-proven window performance

BELLEVUE, OH —
September 6, 2011 —

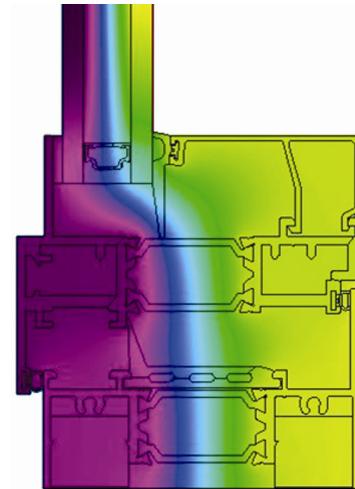

Gail P. Coe, President/CFO of CAPITOL Aluminum and Glass Corporation is excited to announce the addition of the new 325 ES-I to the CAPITOL Energy Sentry® window system product line. Since its' inception in 1975, the Energy Sentry® line of windows has always been designed with energy efficiency in mind.

The new 325 ES-I window system is architecturally-rated (AW-90) and achieves excellent "U"-value performance ranging (.26-.55). Features include 34mm polyamide thermal strut size, overlap ventilator design, and Euro-groove concealed 4-bar hinges attached to 1/8" wall thickness.

The CAPITOL Energy Sentry® window system is a reliable and practical choice for most energy efficient commercial building applications. The Energy Sentry® product line provides the best of both worlds: perfect balance of performance and aesthetics at a competitive price.

Solutions-Based Alternative

CAPITOL Aluminum and Glass Corporation was founded in 1956 and offers a full range of architectural aluminum products and services specializing in single-source project solutions.

This 3-1/4" aluminum polyamide thermal window is aesthetically pleasing and adaptable – the ideal alternative solution for new construction and retro-fit applications.
